The map displays a topographic survey of a site. It features a grid of elevation points (dots) and contour lines. A prominent boundary is marked with a red dashed line, labeled 'Stockgrenze' (Stock boundary), and a green dashed line, labeled 'Waldgrenze' (Forest boundary). Several measurement points are indicated by red dots and labeled with numbers: 11527340, 1367, 1368, 13755030, and 1080. A red arrow points to a specific location on the boundary, labeled '2.00'. The map also shows a road or path running along the left side, and a small rectangular structure labeled '1367' in the upper right. A north arrow is located in the bottom right corner.
